

## UniFi® SmartPower Redundant Power System UniFi SmartPower Cable

Model: USP-RPS, USP-Cable

Continual Monitoring of Six Attached Devices

Automatic Failover if PSU Failure Detected

## Overview

The UniFi SmartPower Redundant Power System, model USP-RPS, is a proprietary redundant power system designed to protect up to six UniFi SmartPower supported devices from sudden power supply module failure. The USP-RPS continually monitors all attached devices. In the event of an internal AC/DC power supply failure, failover is automatic so your network continues to operate with no interruption in service. With a 950W DC power budget, the USP-RPS can protect a variety of high-power devices, including UniFi PoE switches. An integrated 1.3" color touchscreen LCM displays system information for convenient monitoring. Learn more about the USP-RPS and its use cases at:

## Overview

One USP Cable is included with the UniFi SmartPower Redundant Power System. To attach additional devices, the USP-Cable is sold separately as an accessory.

| USP-Cable               |                                |  |
|-------------------------|--------------------------------|--|
| Length                  | 1.5 m (4.9 ft)                 |  |
| Conductor Type          | Tinned Copper                  |  |
| Conductor Wire Gauge    | (18) 16 AWG, (6) 24 AWG        |  |
| Insulation Type         | PVC                            |  |
| Insulation Thickness    | 0.35 mm (0.014")               |  |
| Insulation Diameter     | 2.0 mm (0.079")                |  |
| Jacket Material         | PVC                            |  |
| Jacket Outside Diameter | 9.5 × 23.0 mm (0.374 x 0.905") |  |
