Precise protection. Flexible subscription.

П

Introducing the latest USG Series-USG FLEX, delivering higher levels of performance and flexibility! USG FLEX's platform continue its tradition in providing the latest, leading technologies, all while providing a complete suite of security subscription with seamless, scalable gateway connectivity. We want to bring top of the line experience for all business owners!

Benefits

Higher precision detection uncovers threats

Zyxel Security Cloud keeps learning from collecting threat information. USG FLEX series supports advanced Anti-Malware with cloud query express mode which expands billions of signatures. The cloud query with high detection rate helps verify the file hash within seconds.

Datasheet ZyWALL USG FLEX 100/100W/200/500/700

Precise detection with cloud query express mode

High assurance multi-layered protection

Boosts up to 125% firewall performance and 500% UTM performance

Flexible subscription options for your security needs

Robust SSL, IPSec and L2TP over IPSec VPN connectivity and VPN high availability (HA)

Enabled hospitality features with hotspot, AP management, and concurrent device upgrades

Best threat intelligence alliance

To ensure your network on getting the best protection, USG FLEX integrates threat intelligence from leading companies and organizations in the cybersecurity field for scaled information about file and real-time threat data. By leveraging a wider malware coverage with multiple-sourced database, this increases the accuracy in threat detection. Web Filtering is also included to safeguard all internet access, especially with CTIRU (Counter-Terrorism Internet Referral Unit) to restrict access to terrorist materials online.

Flexible subscription for your need

USG FLEX security services turn your firewall into a comprehensive security solution. Add Unified Threat Management (UTM) and Hospitality bundled service to get the protection and connectivity that meet your network needs. You can also choose from a single license whenever you need, such as Web Filtering, Anti-Malware, SecuReporter Premium, and more.

USG FLEX is designed with multi-layer protection against multiple types of threats from in and out. URL Threat Filter, Anti-Malware, and Intrusion Prevention block external attacks, while Application Patrol and Web Filtering empower you to restrict users' inappropriate application usage or web access. Eliminate blind spots in all the encrypted traffic with SSL inspection with the support for TLS 1.3. All together safeguarding your network without any unattended gaps.

Performance boost

The newly designed platform gains up to 125% firewall performance. Maximizes UTM performance by minimizing computing power usage and get additional 500% UTM performance with cloud query express mode.

Analytics report and enhanced insights

USG FLEX series dashboard gives user-friendly traffic summary and threat statistic visuals. Utilize SecuReporter for further threat analysis with correlation feature design, making it easy to proactively trackback network status to prevent the next threat event. Centralized visibility of network activities for you to easily manage multiple clients.

Comprehensive connectivity

ZyWALL USG FLEX series not only can protect your network, but it also support Hospitality features including Hotspot, AP management with support for WiFi 6 feature, and concurrent device upgrade. You can buy time-based bundle or quantity-based license to optimize your initial investment and maximize the scale in your environment.

Work remotely and securely

As demands for remote access and work from home has increased, USG FLEX offers IPsec, SSL or L2TP based VPNs to provide flexible secure network options for many of the common operating systems. The Setup Wizard only needs four steps to complete VPN connection easily and quickly. USG FLEX series is also validated by Microsoft Azure and AWS for SMB convenience by using a combination of onsite and cloud-based infrastructure with hybrid networks.

Hardware Included License

Hardware Bundled with Licenses

UTM Security Pack (1Year +30-Day trial)
Web Filtering

SecuReporter Premium		Concurrent device (Quantity Based*2)

Hospitality Pack (30-Day trial)

Managed AP Service Hotspot Management* Concurrent device

*: Hotspot Management is available on USG FLEX 200/500/700 only *1: Will include Email Security license service

*2: Allowing additional connected clients is available to USG FLEX 500/700 only

License Service	Feature
UTM License	
Web Filtering	Block access to malicious or risky web sites
IPS(IDP)	Deep-packet inspection against known attacks from Network
Application Patrol	Automatically categorize and manage the network application usage
Anti-Malware	Scan files at the gateway or Zyxel security cloud for malware and other threats
Email Security	Fast detection to block spam/phishing mail with malicious contents
SecuReporter	Cloud-based intelligent analytics and report
Hospitality License	
Managed AP Service	AP auto discovery and provisioning
Hotspot Management	Various Network Access Control
Concurrent device	Top up allowed number of connected clients

*: This matrix with firmware ZLD4.50 or later.

*1: Actual performance may vary depending on system configuration, network conditions, and activated applications.

*2: Maximum throughput based on RFC 2544 (1,518-byte UDP packets).

*3: VPN throughput measurement are based on RFC 2544 (1,424-byte UDP packets); IMIX: UDP throughput based on a combination of 64 byte, 512 byte, and 1424 byte packet sizes.

*4: AV (with Express Mode) and IDP throughput measured using the industry standard HTTP performance test (1,460-byte HTTP packets). Testing done with multiple flows.

 $^{*5:}$ Maximum sessions measured using the industry standard IXIA IxLoad testing tool

*6: Including Gateway-to-Gateway and Client-to-Gateway.

*7: With Zyxel service license to enable or extend the feature capacity.

*8: This is the recommend maximum number of concurrent logged-in devices.

*9: SafeSearch function in CF need to enable SSL inspection firstly and not for small business models.

*10: With Hotspot Management license support

*11: The Speedtest result is conducted with 1Gbps WAN link in real world and it is subject to fluctuate due to quality of the ISP link.

Software Features

Security Service

Firewall

- ICSA-certified corporate firewall
- Routing and transparent (bridge) modes
- Stateful packet inspection
- User-aware policy enforcement
- SIP/H.323 NAT traversal
- ALG support for customized ports
- Protocol anomaly detection and protection
- Traffic anomaly detection and protection
- Flooding detection and protection
- DoS/DDoS protection

Unified Security Policy

- Unified policy management interface
- Support Content Filtering, Application Patrol, firewall (ACL/SSL)
- Policy criteria: zone, source and destination IP address, user, time

Intrusion Detection and Prevention (IDP)

- Routing and transparent (bridge) mode
- Signature-based and behavior based scanning
- Customized signatures supported
- Automatic signature updates

Application Patrol

- Granular control over the most important applications
- Identifies and controls application
 behavior
- Supports 30+ application categories
- Supports user authentication
- Real-time statistics and reports

Anti-Malware

- Stream-based scan engine (Stream Mode)
- HTTP, FTP, SMTP, and POP3 protocol supported
- No file size limitation
- Automatic signature updates

E-mail Security

- Transparent mail interception via SMTP and POP3 protocols
- Spam and Phishing mail detection
- Blacklist and whitelist support
- Supports DNSBL checking

URL Threat Filter

- Botnet C&C websites blocking
- Malicious URL blocking
- Supports External URL blacklist

Datasheet ZyWALL USG FLEX 100/100W/200/500/700

Content Filtering

- HTTPs domain filtering
- SafeSearch support
- Whitelist websites enforcement
- URL blacklist and whitelist with keyword blocking
- Customizable warning messages and redirect URL
- Customizable Content Filtering block page
- URL categories increased to 111
- CTIRU (Counter-Terrorism Internet Referral Unit) support

IP Exception

- Provides granular control for target source and destination IP
- Supports security service scan bypass for IDP, Anti-Malware and URL Threat Filter

VPN

IPSec VPN

- Key management: IKEv1 (x-auth, mode-config), IKEv2 (EAP, configuration payload)
- Encryption: DES, 3DES, AES (256-bit)
- Authentication: MD5, SHA1, SHA2 (512-bit)
- Perfect forward secrecy (DH groups) support 1, 2, 5, 14, 15-18, 20-21
- PSK and PKI (X.509) certificate support
- IPSec NAT traversal (NAT-T)
- Dead Peer Detection (DPD) and relay detection
- VPN concentrator
- Route-based VPN Tunnel Interface (VTI)
- VPN high availability (Failover, LB)
- GRE over IPSec
- NAT over IPSec
- L2TP over IPSec
- Zyxel VPN client provisioning
- Support iOS L2TP/IKE/IKEv2 VPN client provision

SSL VPN

- \bullet Supports Windows and Mac OS X
- Supports full tunnel mode
- Supports 2-Factor authentication

Networking

WLAN Management

- Supports AP Controller (APC) version 3.60
- 802.11ax Wi-Fi 6 AP and WPA3 support

10

• 802.11k/v/r support

- Wireless L2 isolation
- Supports auto AP FW update
- Scheduled WiFi service
- Dynamic Channel Selection (DCS)
- Client steering for 5 GHz priority and sticky client prevention
- Auto healing
- Customizable captive portal page
- WiFi Multimedia (WMM) wireless QoS
- CAPWAP discovery protocol
- Multiple SSID with VLAN
- Supports ZyMesh
- Support AP forward compatibility
- Rogue AP Detection

Mobile Broadband

- WAN connection failover via 3G and 4G* USB modems
- Auto fallback when primary WAN
 recovers

IPv6 Support

• Dual stack

Connection

hvbrid mode

• NAT and PAT

• GRE

RGP)

Ethernet and PPPoE

VLAN tagging (802.1Q)

• Policy-based NAT (SNAT)

• DHCP client/server/relay

• Dynamic DNS support

Per host session limit

• Maximum bandwidth

Guaranteed bandwidth

• Bandwidth limit per user

Link Aggregation support^{*1}

Bandwidth limit per IP

• IPv4 tunneling (6rd and 6to4 transition tunnel)

• IPSec (IKEv2 6in6, 4in6, 6in4)

• Routing mode, bridge mode and

• NAT Virtual Server Load Balancing

• Virtual interface (alias interface)

• Policy-based routing (user-aware)

• Dynamic routing (RIPv1/v2 and OSPF,

• WAN trunk for more than 2 ports

• Priority-bandwidth utilization

Bandwidth management by application

SLAAC, static IP addressDNS, DHCPv6 server/client

• Static/Policy route

Management

Authentication

- Local user database
- External user database: Microsoft Windows Active Directory, RADIUS, LDAP
- IEEE 802.1x authentication
- Captive portal Web authentication
- XAUTH, IKEv2 with EAP VPN authentication
- IP-MAC address binding
- SSO (Single Sign-On) support
- Supports 2-factor authentication with Google Authenticator as the second factor for administrator account

System Management

- Role-based administration
- Multi-lingual Web GUI (HTTPS and HTTP)
- Command line interface (console, web console, SSH and telnet)
- SNMP v1, v2c, v3
- System configuration rollback
- Configuration auto backup
- Firmware upgrade via FTP, FTP-TLS and Web GUI
- New firmware notify and auto upgrade
- Dual firmware images
- Cloud CNM SecuManager

Logging and Monitoring

- Comprehensive local logging
- Syslog (to up to 4 servers)
- Email alerts (to up to 2 servers)
- Real-time traffic monitoring
- Built-in daily report
- Cloud CNM SecuReporter
- *: For specific models supporting the 3G and 4G dongles on the list, please refer to the Zyxel product page at 3G dongle document
- *1: Supported models USG FLEX 500/700

Access Point Compatibility List

Product	Unified AP		Unified Pro AP	
Models	 NWA5301-NJ NWA5121-NI NWA5123-AC HD NWA5123-AC NWA5123-AC NWA5123-NI 	 WAC5302D-S WAX510D WAC5302D-Sv2* WAC500* WAC500H* 	 WAC6103D-I WAC6503D-S WAC6502D-S WAC6303D-S WAC6553D-E 	• WAC6552D-S • WAC6502D-E • WAX650S • WAX610D*
Functions				
Central management	Yes		Yes	
Auto provisioning	Yes		Yes	
Data forwarding	Local bridge		Local bridge/Data	tunnel
ZyMesh	Yes		Yes	

*: From APC3.0, commercial gateways supporting APC technology are able to recognize APs with FW release higher than APC3.0 as Forward Compatible APs. Resellers can introduce newly-available Zyxel APs with basic features supported without upgrading any new controller firmware.

Accessories

SecuExtender Software

Item	Description	Supported OS
IPSec VPN Client*	IPSec VPN client software for the ZyWALL and USG Series with Easy VPN for zero configuration remote access	 Windows Server 2016 Windows Server 2019 Windows 7 (32/64-bit) Windows 8 (32/64-bit) Windows 10 (32/64-bit)
SSL VPN Client*	Secured VPN connection between PC/MAC and ZyWALL Firewall	 Windows 7 (32/64-bit) Windows 8 (32/64-bit) Windows 10 (32/64-bit) MacOS 10.14

*: A 30-day trial version of IPSec VPN client and SSL VPN client for MAC OS can be downloaded from official Zyxel website. To continue using the application, please contact your regional sales representatives and purchase a commercial license for the application.

Service Gateway Printer

Model	Feature	Supported Model					
SP350E	 Buttons: 3 Paper roll width: 58 (+0/-1) mm Interface: 10/100 Mbps RJ-45 port Power input: 12V DC, 5A max. Item dimensions (WxDxH): 176 x 111 x 114 mm (6.93" x 4.37" x 4.49") Item weight: 0.8 kg (1.76 lb.) 	 USG FLEX 200 VPN50 USG FLEX 500 VPN100 VPN300 VPN1000 	 USG60(W) USG110 USG210 USG310 USG1100 USG1900 USG2200 Series 	• ZyWALL 110 • ZyWALL 310 • ZyWALL 1100			

*: Hotspot management licenses required

Transceivers (Optional)

Model	Speed	Connector	Wavelength	Max. Distance	Optical Fiber Type	DDMI
SFP10G-SR*	10-Gigabit SFP+	Duplex LC	850 nm	300 m/ 328 yd	Multi Mode	Yes
SFP10G-LR*	10-Gigabit SFP+	Duplex LC	1310 nm	10 km/ 10936 yd	Single Mode	Yes
SFP-1000T	Gigabit	RJ-45	-	100 m/ 109 yd	Multi Mode	-
SFP-LX-10-D	Gigabit	LC	1310 nm	10 km/ 10936 yd	Single Mode	Yes
SFP-SX-D	Gigabit	LC	850nm	550 m/ 601 yd	Multi Mode	Yes
SFP-BX1310-10-D*1	Gigabit	LC	1310 nm(TX) 1490 nm(RX)	10 km/ 10936 yd	Single Mode	Yes
SFP-BX1490-10-D*1	Gigabit	LC	1490 nm(TX) 1310 nm(RX)	10 km/ 10936 yd	Single Mode	Yes

*: only USG2200-VPN supports 10-Gigabit SFP+

*1: SFP-BX1310-10-D and SFP-BX1490-10-D are must used in pairs.
